EDUCATION

Full-stack Web development

CareerFoundry

02.2022-09.2022

The program of Intro to front-end development and the full-stack immersion.

LANGUAGES

English	Hebrew
German	Russian

PROFILE

Certified full-stack web developer, transitioned into tech two years ago from the gastronomy with a goal to become a senior developer. In my recent work I contributed to M3E DevOps team, focusing in frontend development as a junior. Gained experience in creating dynamic features, maintaining GitHub repositories, and optimizing platform performance. Skilled in end-to-end website development with a focus on user interface design and efficient backend programming.

WORK EXPERIENCE

Frontend developer

M3E GmbH   02/2023-02/2024

- Participated in the M3E DevOps team, worked with senior developers and fellow developers.
- Had a significant role in the frontend development of the M3E website, building components and dynamic features based on UX/UI design mockups.
- Utilized Tailwind CSS for styling and employed the Vercel cloud platform with the Next.js framework.
- Developed projects using Typescript and Javascript, ensuring quality assurance and bug fixing and high responsivness for optimal functionality across different browsers and screen sizes.
- Managed multiple GitHub repositories, including pushing and deploying different branches of team members and code reviewing.
- Designed and implemented a one-pager for the M3E subpage with features like newsletters and whitelists using Mailchimp and cookies functionalities.
- Managed the migration of the Joomla CMS database to Sanity CMS as directed by the consulting team.
- Performed testing procedures to ensure the quality and reliability of code.
- Communicated with external service providers (Billbee, Vercel, Sanity) and arranged meetings to provide insightful concepts and solutions to the IT team.

WEB DEVELOPMENT PROJECTS

Pokedex CareerFoundry   03/2022-04/2022

- Created a JavaScript app built along with HTML, CSS, and jQuery, which uses an external API.
- Implemented features according to guidelines set out by mock-ups and design assets.
- Utilized object-oriented programming (OOP) and functional programming (FP)
- principles to carry out application features.

Meet App CareerFoundry   05/2022-06/2022

- Developed a progressive-web application with React using a test- driven development (TDD) technique with Enzyme and Jest.
- Translated user stories into scenarios for unit testing, acceptance testing, and end to-end testing.
- Implemented serverless functions with AWS lambda for the authorization server.
